

Evaluation of the online 22-hour health and safety study programme

Please only mark your answer with **one cross at each question**. Mind that **the crosses must be within the designated boxes**. Crosses put outside of the designated boxes will not be included in the total count. This applies, for instance, in cases of crosses put between two response categories. Questions containing several rows must be answered with one cross per row (e.g. question 2).

This questionnaire contains both the terms *the health and safety organisation* and *the health and safety committee*. When you fill out this questionnaire, please answer the questions in accordance with your position within your health and safety organisation, whether it is in the form of an organisation in a single level, or a committee, where the health and safety tasks are organised into several levels.
